 Complete series of all the corner samples (included also slip and spacer samples)			about 1250 samples	€ 320	C99		
<p>The system consists of a series of panels equipped with rows of holes to insert the plastic hangers.</p> <p>Panels are cherry colour. Thickness 18 mm. Height 140 cm. They can be easily fixed together with wooden plugs so as to form a unique panel.</p> <p>We advise to hang the panels on the wall by using the proper metal bar (code 307). One metal bar to hang on the on the wall. The other bar to hang to the panel.</p> <p>Advantages</p> <ul style="list-style-type: none">• Samples are perfectly aligned.• You can decide the distance between one corner sample and the other.• You can easily change the position of the samples.• The orderly display of the samples gives the store an elegant and professional look.
